SUMMARY

Software Developer with hands-on experience building full-stack and responsive web applications using JavaScript, React.js, Node.js, Express.js, and MongoDB. Experienced in developing RESTful APIs, reusable frontend components, authentication workflows, database-driven applications, and third-party API integrations. Strong foundation in software development, DSA, and problem-solving, with experience delivering real-world web applications.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Three.js (Basic)

Backend: Node.js, Express.js, REST APIs, MongoDB, PostgreSQL

Tools & Concepts: Git, GitHub, Postman, Vercel, JWT, OOP, DSA

WORK EXPERIENCE

Frontend Developer Intern — Comind Digital Mar 2026 – Aug 2026

- Developed **responsive and interactive business websites** using **React.js** and **Tailwind CSS**, delivering consistent experiences across desktop and mobile devices.
- Built **reusable React components** and integrated **RESTful APIs** to enable efficient data flow and improve application functionality.
- Improved **frontend maintainability and responsiveness** through component reusability and efficient UI implementation.
- Collaborated with clients to understand requirements, implement features, resolve UI issues, and deliver **user-friendly web experiences**.

Web Development Intern — GMMSP May 2024 – Jul 2024

- Built and maintained **responsive web interfaces** using **HTML5, CSS3, Bootstrap, and JavaScript**, ensuring consistent functionality across devices.
- Integrated **REST APIs** and resolved frontend issues to improve application functionality and responsiveness.
- Collaborated with developers using **Git** to implement features and support project delivery.

PROJECTS

Foodora — Full-Stack Food Ordering Reels Platform GitHub Live Demo

- Built a **MERN-based food ordering platform** combining **short-form food reels, food discovery, and ordering workflows** for users and food partners.
- Developed **reusable React.js components** and integrated **Node.js, Express.js, and MongoDB** to implement authentication, food management, reels, and order workflows.
- Implemented **role-based authentication, protected routes, cookie-based authentication**, and separate user and food-partner dashboards.
- Integrated **ImageKit** for **storing and serving food-partner reels**, enabling cloud-based media management and seamless reel delivery within the application.
- Deployed the application with a responsive interface supporting **food discovery, reels, food-partner management, and ordering workflows**.

CareXpertAI — AI-Powered Healthcare Platform GitHub Live Demo

- Developed a **full-stack healthcare platform** for appointment booking, patient management, doctor services, and AI-assisted diagnostic reporting.
- Built **15+ RESTful APIs** using **Node.js, Express.js, and MongoDB** for authentication, appointment scheduling, patient management, and doctor services; developed **20+ reusable React.js components** using Tailwind CSS.
- Integrated **REST-based AI services, Google Maps API, and automated PDF report generation** into the application.
- Delivered a **responsive healthcare platform** supporting integrated patient, doctor, appointment, and AI-assisted reporting workflows across desktop and mobile devices.

EDUCATION

Bachelor of Technology in Computational Science 2022 – 2026

D. Y. Patil International University, Pune
